Civil Action No.: 06-cv-2433-DMS (CAB)

JUDGMENT

Judge Dana M. Sabraw

Pursuant to Rule 58 of the Federal Rules of Civil Procedure, the Court enters Final Judgment, except for an accounting, as described herein.

WHEREAS Plaintiff American Calcar, Inc. ("ACI") filed a complaint against Defendants American Honda Motor Co., Inc. ("AHMC") and Honda of America Manufacturing, Inc. ("HAM") (collectively, "Honda") asserting infringement and willful infringement of U.S. Patent Nos. 6,587,759; 6,459,961; 6,330,497; 6,438,465; 6,542,795; 6,009,355; 6,275,231; 6,577,928; 6,542,794; 6,975,932; 7,162,370; 6,148,261; 6,529,824; 6,754,485 and 6,987,964;

WHEREAS AHMC asserted counterclaims of non-infringement and invalidity as to each ACI patent named in the complaint and asserted counterclaims of unenforceability as to U.S. Patent Nos. 6,330,497; 6,438,465; 6,542,795; 6,009,355; 6,587,759; 6,459,961; 6,577,928 and 6,542,794.

For the reasons stated in my Orders and Memoranda issued in this action,

IT IS ORDERED AND ADJUDGED that judgment be and hereby is entered as follows:

1. Judgment is entered in favor of ACI and against Honda with respect to U.S. Patent No. 6,587,759, which is adjudged infringed and not invalid. AHMC's counterclaim of unenforceability directed to U.S. Patent No. 6,587,759 is dismissed with prejudice.

2. Judgment is entered in favor of Honda and against ACI with respect to U.S. Patent Nos. 6,009,355; 6,275,231; 6,577,928; 6,542,794; 6,975,932; 7,162,370; 6,148,261; 6,529,824; 6,754,485 and 6,987,964, which are each adjudged not infringed. AHMC's counterclaims of invalidity as to these patents have been dismissed without prejudice. AHMC's counterclaims of unenforceability directed to U.S. Patent Nos. 6,009,355; 6,577,928 and 6,542,794 are dismissed without prejudice.

3. Judgment is entered in favor of Honda and against ACI with respect to U.S. Patent Nos. 6,330,497, 6,438,465 and 6,542,795, which are each adjudged unenforceable due to inequitable conduct. U.S. Patent No. 6,330,497 is further adjudged invalid. ACI's claim and AHMC's counterclaim respecting infringement of U.S. Patent No. 6,330,497 are dismissed without prejudice. ACI's claims and AHMC's counterclaims respecting validity and infringement of U.S. Patent Nos. 6,438,465 and 6,542,795 are dismissed without prejudice.

1 4. ACI's willful infringement claim is dismissed with prejudice.

2 5. ACI's request for a permanent injunction has been denied.

3 6. ACI's claims and AHMC's counterclaims respecting U.S. Patent No. 6,459,961
4 are dismissed with prejudice.

5 Accordingly, this judgment is final except for an accounting within the meaning of
6 28 U.S.C. § 1292(c)(2). The Court will consider issues relating to damages and attorneys fees, if
7 appropriate, upon resolution of the appeal from this judgment. Accordingly, the Court denies as
8 moot Honda's motion for attorneys' fees (Docket No. 616) and ACI's motion for certification of
9 the inequitable conduct order for interlocutory appeal (Docket No. 617).

2 and Innovative Knowledge states as follows:
3

4 **I. PARTIES**

5 1. Zane is a corporation organized and operating under the laws of the State of
6 Texas with its principal place of business at 30 Rewi Street, Torbay, Auckland 1310. New Zealand.

7 2. J.C. Research is a California corporation having offices at 606 North First
8 Street, San Jose, California 95112.

9 3. Innovative Knowledge is a California corporation having offices at 606 North
10 First Street, San Jose, California 95112.

11 4. J.C. Research and Innovative Knowledge are collectively referred to as
12 Defendants.
13

14 **II. JURISDICTION**

15 5. The federal claims pleaded herein arise under 15 U.S.C. § 1051 et seq. and
16 17 U.S.C. § 101 et seq.

17 6. Original federal subject matter jurisdiction for the federal claims pleaded
18 herein is conferred upon the Court by 15 U.S.C. § 1121 (the Lanham Act), 17 U.S.C. § 501 (the
19 Copyright Act), 28 U.S.C. § 1331 (federal question) and 1338(a) (copyright).

20 7. Jurisdiction for the state law claims is conferred upon the Court by 28 U.S.C.
21 § 1338(b) ("substantial and related claim of unfair competition"), and 28 U.S.C. § 1367 ("other
22 claims that are so related to claims in the action within such original jurisdiction that they form part
23 of the same case or controversy under Article III of the United States Constitution").

24 8. This Court has general personal jurisdiction over the Defendants because
25 Defendants are conducting business in the State of California and this District, and wrongful acts
26 have occurred in this District.
27
28

1 **III. INTRADISTRICT ASSIGNMENT**

2 9. Pursuant to L.R. 3-2(c), this case being an Intellectual Property Action, it lies
3 in one of the excepted categories that shall be assigned on a district-wide basis.

4
5 **IV. BACKGROUND**

6 **A. Zane Development of Educational Software Titles**

7 10. Zane was incorporated in the early 1990s and was successor to ZCI, Inc.

8 11. Between 1995 and 2000 Zane grew into one of the leading educational
9 software publishers in the United States, developing and releasing in excess of 250 CD-ROM titles.
10 Their entire product range focused on supporting the K-12 education curriculum.

11 12. While most software publishers have always concentrated on providing
12 software titles for simply the math, reading and writing markets, Zane built itself a significant
13 reputation for providing a comprehensive range of CD-ROM titles for Art, Music, History, Science,
14 Biology, Literature, Geography, Social Sciences, Library Skills and Health.

15 13. To enable it to publish such a comprehensive range of titles, Zane accessed
16 content by entering into Licensing Agreements with several notable paper publishers. A portion of
17 that content was originally licensed to Zane through Clearvue. The content was normally in non-
18 digital format, which Zane converted into digital format.

19 14. Zane designed and developed the uniform design for a library of CD-ROM
20 titles. Zane developed a compact disc (CD) engine called "PowerCD" that formed the core of each
21 title. Zane also developed and built the soundtracks and the graphic interface on each CD-ROM. All
22 of the text, graphic and video files were then purposed, developed and structured individually to fit
23 the format and design requirements of Zane's PowerCD engine to produce the finished title.

24 15. Each Zane CD-ROM follows a standard design and presentation format so
25 as to enable it to be of value to students across a wide range of ages, as well as accommodating the
26 needs and requirements of students with reading disabilities and sight impairments. Hence the
27
28

1 student is either able to listen to the presentation via the audio tracks, or alternatively read the
2 contents on screen.

3 16. An interactive Quiz testing facility included with the titles was developed by
4 Zane and was operated as part of the PowerCD engine. Zane designed and participated in writing
5 over 22,000 questions and answers which were then digitally formatted, purposed to fit the PowerCD
6 engine, which provided each completed Zane title with its own interactive multiple choice testing
7 facility.

8 17. PowerCD is a trademark of Zane registered in the United States Patent and
9 Trademark Office, Registration No. 1,847,276 for "operating system software."

10 18. Zane Publishing and American Concise Encyclopedia are trademarks of Zane.

11 19. As a result of its activities, the copyright to numerous titles are registered with
12 the United States Copyright Office listing Zane as a joint owner.

13
14 **B. Clearvue Contracts**

15 20. To allow access and use of Clearvue content and to market the final titles,
16 Zane entered into a series of contracts with Clearvue. The contracts include a publishing and
17 licensing agreement dated May 11, 1994, as amended, a publishing and licensing agreement dated
18 September 22, 1995, as amended, and a PowerCD publishing/licensing and cost distribution
19 agreement dated June 18, 1998.

20 21. The contracts are directed toward the development and marketing of education
21 curriculum software titles. They provided, inter alia, for cross licenses, restrictions on the marketing
22 of the titles by the parties, the payment of royalties and joint ownership by Zane of the titles covered
23 by the agreements. The agreements provided Zane would have an exclusive license to distribute the
24 Zane software titles within the non-education market, whereas Clearvue would have exclusive rights
25 to distribution of the Zane titles in the formal education market, i.e. schools, universities and public
26 libraries.

1 **C. Zane Bankruptcy**

2 22. In 1998, due to market conditions impacted by the Internet, Zane went into
3 bankruptcy.

4 23. The Bankruptcy Court confirmed the assumption of the Clearvue executory
5 contracts by Zane, after approval by Clearvue.

6 24. Nicholas Tee, originally based in the United Kingdom and now in New
7 Zealand, became the controlling stockholder during a bankruptcy reorganization.

8 25. In May, 2000, Zane left bankruptcy.
9

10 **D. J.C. Research, Fogware Publishing and Innovative Knowledge**

11 26. After bankruptcy, Zane continued to market its titles, including use of
12 distributors such as J.C. Research. However, its activities selling CD titles lessened as it sought to
13 transition from the physical sale and delivery of CD-ROMs to an Internet delivered format.

14 27. Zane ended its distributorship relationship with J.C. Research in 2002.

15 28. Zane later became aware that J.C. Research was marketing the previously
16 licensed Zane titles and derivative copies of Zane titles outside the formal education market in
17 various ways, including through its division Fogware Publishing.

18 29. J.C. Research has also been marketing Zane titles and derivative copies of
19 Zane titles without permission of Zane that were not developed as part of Clearvue agreements.

20 30. Titles marketed by J. C. Research make reference to Zane and use Zane's
21 trademarks, without Zane's permission. The Zane Titles have also been marketed by Innovative
22 Research, a company located at the same address as J.C. Research.

23 31. J. C. Research has improperly overlaid the copyright notice of Zane by a
24 copyright notice falsely claiming copyright in Zane's titles by J. C. Research's division, Fogware
25 Publishing.
